

First Letter

I have left you
a mystery box
a secret so rare
is not easy to unlock

A clue I'll give you
But shhh - it's a secret
A dangerous one
so you'll have to keep it

A secret code
unlocks this box
the first number
you will find in a cup

Among cups and mugs
squared and curved
The number is hiding
where all drinks are served

First mini scroll – punching cups

Monsters! Monsters!
Hurry we must fight
Did you hear that noise?
I think they're outside

Second mini scroll – balloon monsters

Spirits and ghosts
will be haunting us soon
Who catches the most?
In the living room

No number
was found in here
but in my riddle
the answer will appear

1 witch fell off her broom
1 spider dropped down with caution
2 frogs jumped in with a splash
How many are in the cauldron?

A mysterious gift
for cracking the code
My oldest wand
A secret road

A path unknown
Under the moon
Where trees are tall
Where shadows bloom

Watch out for the ghosts
and souls of the heartless
A secret treasure
is hidden in darkness

No time to waste
while the night is blue
in the garden
the stones will guide you
